Specifications are subject to change without notice.

[1] Ink droplets can be placed with a pitch of 1/4800 inch at minimum.

[2] Document print speeds are the averages of ESAT (Word, Excel, PDF) in Office Category Test for the default simplex mode, ISO/IEC 24734.
Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer.
Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.

[3] TWAIN driver (ScanGear) is based on the TWAIN specification V1.9 and requires the Data Source Manager comes with the operating system.

[4] Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard. Optical resolution scan is available, only when you use TWAIN Driver.

[5] Copy speeds are the average of sFCOT and sESAT, ISO/IEC 29183.
Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warm up time.

[6] Operation can only be guaranteed on a PC with a pre-installed Windows 7 or later.

[7] When copying ISO/JIS-SCID N2 (printed by inkjet printer) on A4 size plain paper using default settings.

[8] Page Yield is the estimated value based on Canon individual test method using the ISO/IEC 24712 colour chart and continuous printing simulation with the replacement after initial setup.
Package contains GI-71S (black, cyan, magenta and yellow) ink bottles.

[9] The Economy mode reduces the ink consumption by lowering the density. More pages can be printed than the standard mode.

[10] Black ink is not used when printing under this condition. However, a minimal amount of black ink is used for maintenance purpose.
