imageFORMULA Flatbed Scanner Unit 102

Expand your scanning capabilities with flatbed scanning

Space-saving design for versatile placement

The flatbed unit's space-saving design allows placement in limited spaces. Place the unit unobtrusively on a teller counter at a bank or travel agency, for example, and improve workplace productivity.

Expanded functionality

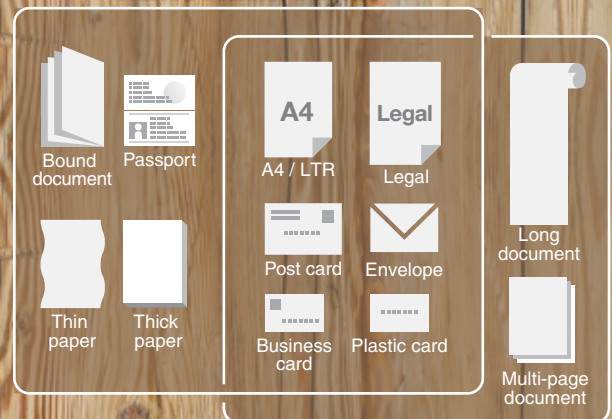

From high-end models to low-end models, the flatbed unit is compatible with a significant portion of Canon's diverse DR-series lineup. Whether it's a low-end compact scanner for small-scale scanning on a desktop or a medium to large sized ADF scanner for large scale operations with volumes of documents for scanning, the flatbed unit works in conjunction with other scanners connected to the same computer, expanding functionality.

Scan without damaging documents

The flatbed unit is capable of scanning document types that cannot be scanned via ADF on DR-series scanners, such as very thick or very thin paper, bound documents, passports, and plastic cards, while important documents can also be scanned without being damaged. Add to the types of documents already supported by your DR-series scanner, and broaden your scanning capabilities with the flatbed unit.

Flatbed Scanner Unit 102

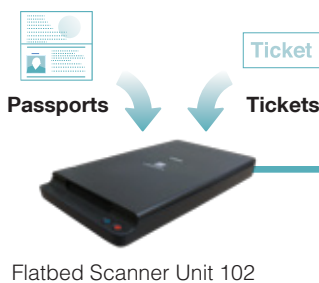

DR-Series Scanner

Seamless scanning

Optimize scanning by separating scanning tasks, using DR-series scanners for multi-page standard-sized documents and the flatbed scanner for documents that cannot be scanned via ADF (e.g., thin documents, such as tickets and ledger paper, and bound documents, such as passports). Image data for documents scanned via feeders can be saved to the same image file used for documents scanned with the flatbed, allowing you to store images of tickets, passports, and other travel documents, for example, on a single file.

Documents not scannable via ADF

Documents scannable via ADF

Save as single scanned image file.

This product is intended to be used in combination with the Canon document scanners. It cannot operate as a stand-alone unit.

Compatible scanners

DR-C225W*, DR-C240, DR-M140, DR-M160II, DR-M1060, DR-6010C, DR-6030C, DR-G1130/1100, DR-X10C

* The DR-C225W is compatible only with a USB connection.

Specifications

Type	Desktop flatbed		
Scanning document size	Width: 216 mm		
	Length: 356 mm		
Scanning sensor	CIS		
Light source	LED		
Scanning side	Simplex		
Scanning modes	Black and White, Error Diffusion, 256-level Grayscale, Advanced Text Enhancement II, 24-bit Color		
Scanning resolution (primary scan lines x secondary scan lines)	100 x 100 dpi / 150 x 150 dpi / 200 x 200 dpi / 240 x 240 dpi / 300 x 300 dpi / 400 x 400 dpi/ 600 x 600 dpi		
Scanning speed (Conditions: Core 2 Duo 3.0GHz or faster CPU, 3 GB or more memory, LTR / A4 document size)	24-bit color	600 dpi	9.0 sec.
		300 dpi	3.9 sec.
	Grayscale	600 dpi	4.5 sec.
		300 dpi	3.0 sec.

Interface	Hi-Speed USB 2.0 (Type B x 1)
External dimensions	267 mm x 466 mm x 64 mm (W x D x H)
Weight (without AC adapter)	Approximately 2.5 kg
Power supply (using AC adapter)	DC 16 V, 0.4 A
Power consumption	Scanning: Maximum 7.0 W In Sleep mode: Maximum 1.7 W With power turned OFF: Maximum 0.5 W
Noise	Not more than 59 dB
Operating environment	Temperature: 10°C to 32.5°C Humidity: 20% to 80% RH

The above scanning speeds may not be achieved depending on actual operating conditions.
